October 2026 Commits

Date	Commit	Description
2026-10-05	d0f97ad	Handled "I bought these for someone else": added a comments field to Angel donations and Flex packages, let admins set a Flex purchase date, and stopped the public Angels and patron-lookup endpoints from exposing private details.
2026-10-07	76139f0	Added an unconfirmed-payments report to Ticket Sales, with payment reminder emails to patrons.
2026-10-09	348fdc1	Added ticket numbers to the subject line of patron emails (purchase confirmation, comp tickets, payment reminders).
2026-10-11	947d30f	Flex redemptions now need email confirmation before they're booked. Locked down the public ticket-sale endpoint so it can't set admin-only fields. Converted the remaining MyISAM tables to InnoDB.
2026-10-11	96ea17e	Ticket sale form shows the patron's current Angel level and drink/snack benefits, or notes that they're not an Angel under that email.
2026-10-11	64d75a1	Linked older current-season Angel records to their patrons, showed the patron email on the Angel edit dialog, and rewrote the README.
2026-10-11	1889a7a	Added edit and delete to the Angels by Season table, and fixed the delete confirmation that said "undefined".
2026-10-13	f89bc0f	Made credit/debit card the first payment option on the class enrollment form.
2026-10-14	3691204	Fixed the links in the Flex confirmation email.
2026-10-14	d84a288	Made Flex email confirmation a setting and turned it off, so Flex redemptions book immediately again.
2026-10-14	30be5f3	Added ticket number search and a payment method filter to Ticket Sales.
2026-10-14	2e24235	Stopped duplicate comps: one comp per person per show unless the admin ticks "Issue an additional comp".
2026-10-14	89b9cde	Deleting a comp ticket sale now returns the comp to the person as unused and releases its ticket number.
2026-10-14	8bbb146	Admins can manually add an enrollee to a class.
2026-10-16	eab7df2	Changed the unconfirmed report to show every unconfirmed payment (reverted the same day).

Date	Commit	Description
2026-10-16	d3e777d	Reverted the previous change.
